

**Sent:** 21 February 2011 12:55

Dear Ms Newell

We note that you have not received the documents entitled: 'Bracho', 'Check No Balance', 'Wulff p43' and 'Wulff p77'. These are attached, as well as the documents 'BMJ Evidence 2008' and 'BMJ Evidence 2010'.

We also note the following points about these documents:

1. Your email of 10 December 2010 stated that you hoped to check the documents against the list supplied in the following week.
2. You did not notify us of the lack of any of these documents until 9 February 2011, when you informed us that the document 'Evidence Check' was missing.
3. On 15 February 2011 you informed us that the documents 'BMJ Evidence 2008', 'BMJ Evidence 2010' and 'Bracho' were missing.
4. On 18 February you sent us the draft recommendations and informed us that the documents 'Wulff p43' and 'Wulff p77' were also missing.

We did not respond to these recent emails more quickly as the H:MC21 office was closed from 7 to 18 February.

We are concerned that it took the ASA two months to identify that documents had not arrived, and that so little time was given to respond before the Investigations Team drafted its recommendations.
